## CLEAN CITY, GREEN CITY, YEHI HAI MERI JAIPUR DREAM CITY

Today Jaipur Explore have an cool post to share. A campaign of Highly effective and catchy Go Green posters. These poster can be a reference to learn about the importance of Clean City, Green City, these posters focus on environmental sustainability to minimize the environmental footprint and should be able to increase awareness for the environment.

The call for environmental awareness has been around for a while; if not continually reinvented, the message loses its impact on the audience, just like any other advertising or promotional campaign.

Environmental awareness campaigns are not a new thing. Calls to protect the environment have been around almost as long as industrialization, These days, it's not nearly enough to just pay lip service to the idea of sustainable, environmentally-friendly practices. Consumers today are more critical than ever about unethical practices that could be seen as green washing. If you're going to run a print ad with an environmentally-conscious message, it's just that much stronger if you actually practice what you preach.

Spread awareness on the issue through compelling visuals to better grab people's attention with this Environmental Campaign Poster from Jaipur.

We are calling on NGOs, Jaipur Traffic Police , Jaipur's Youth, Cafes, Restaurant, Owners Many Boys & Girls to join the campaign by confirming their support for the campaign statement.
